

Instant rapid set plugging mortar

### Description:

CETPATCH RP is a polymer modified ready to use powder with selected additives for quick and reliable sealing and plugging of leaks.

### Advantages:

- CETPATCH RP is an unsurpassed, quick water sealing material for the repair of leaks, water seepage in cellars, tunnels basement etc.
- CETPATCH RP sets hydraulically without shrinkage.
- Sealing is permanent.
- Also use as fixing agent.

### Area of application:

- CETPATCH RP can be use everywhere, where a quick and reliable sealing in necessary even against water pressure.
- While waterproofing jobs especially where continuous seepage of water does not enable conditions to carry out any waterproofing treatments.
- Steel construction & electrical installations.
- Sanitary plumbing installations.
- General fitting work.

### Direction for use

- CETPATCH RP in small amounts with water knead it into a paste and mould it into a plug shaped and press until, the plug shaped mass.
- Hold it immediately against water leak in the joint and press until, the plug sets.
- Setting time can be accelerated by using hot water.
- Should prepared CETPATCH RP show signs of hardening before plugging, it must not be considered for further use and addition of water in this case in not permissible.

**Packing:** Supplied in 1 kg.
